

BRAND KIT. OPTION A, BLUEPRINT. SEPTEMBER 24TH, 2026

Blueprint

The Studio is a precision shop. The date and the price are drawn before the work starts, like a plan.

Marks

Three pieces: the primary lockup, the monogram and the wordmark. Each is drawn as SVG and shown on the light ground and the dark ground.

 32 px, favicon

 48 px

 96 px

The monogram is never set below 16 px. The lockup is never set below 120 px wide. Below that, use the monogram alone.

CLEAR SPACE

Clear space on every side equals x, one quarter of the monogram's height. Nothing enters the box.

Three things never to do

Never a royal blue or a bright orange
That is a stadium, not a studio.

Never a soft radius or a drop shadow
The system is drafted. Edges stay sharp.

Never the monogram without its frame

		The frame is the sheet. Without it the letters float.

Palette

Every color with its hex, its role and its measured contrast against the text it is paired with.
Body text needs 4.5 to 1. Large text needs 3 to 1. The ratios below are computed from the hex values, not asserted.

Paper Paper #F4F6F9 as Ground On #0F1B2D 15.96 to 1, AA body needs 4.5

SPECIMEN. SITE COPY, UNCHANGED

A website in a week. A working app in a month. One fixed price.

Three packages. No hourly billing.

Agencies quote \$15,000 to \$40,000 and 3 to 6 months for a basic app. I build the same thing in 30 days for \$7,500, and a five page site in 5 business days for \$2,500. You know the price and the date before you say yes.

Ellington Studio is a venture of Ellington Enterprises LLC. Prices listed on September 24th, 2026.

FOOTER

ELLINGTON STUDIO

Ellington Studio is a venture of Ellington Enterprises LLC. Prices listed on September 24th, 2026. Every project starts with a written scope and ends with you owning the work.

Spacing, radius and shadow	
RULE	VALUE
Spacing unit	8px. Sections 96px, blocks 48px, card padding 28px, gaps 24px
Radius	2px on everything. Corners are drafted, not softened
Shadow	None. Depth comes from the 1px line and the grid, never a blur
Rules	1px lines in Grid. Dimension ticks 6px long at section edges

Photography direction

Six shots that would carry the site, and one generated sample of the direction.

SHOT 01

A birch workbench from above, a steel rule and a mechanical pencil aligned to the edge, morning daylight from the left.

SHOT 02

One human hand, sleeve rolled, setting a drafting square against a sheet of slate blue paper with white grid lines.

SHOT 03

A clean desk with a closed laptop, a paper notebook open to a hand drawn wireframe, a single ember pencil cap.

SHOT 04

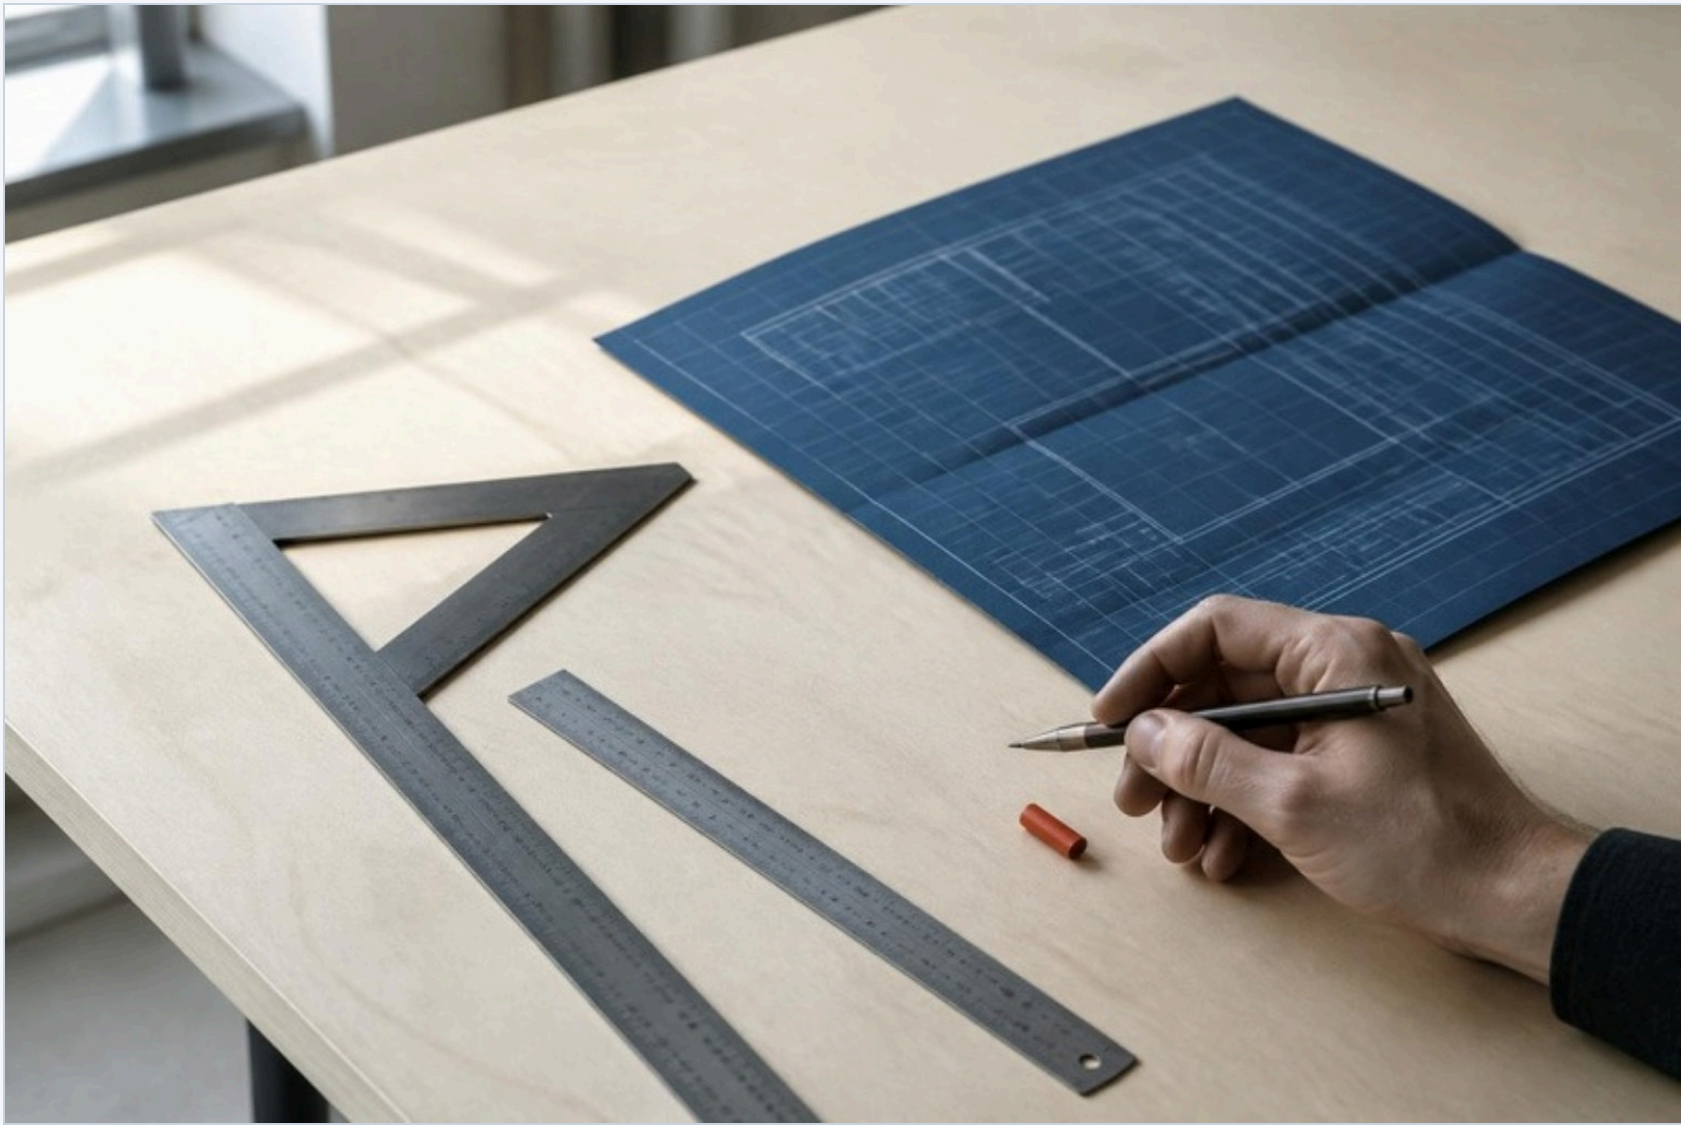

A wall of pinned plans, shot straight on, the grid of the paper catching side light, no people.

SHOT 05

A phone on the bench beside a printed scope, the screen showing a plain white page, the rest of the frame in shadow.

SHOT 06

A window sill with a level, a tape measure and a coffee, the light flat and honest, everything square to the frame.

AI generated sample, September 24th, 2026. Birch workbench, drafting square, steel rule, slate blue grid paper, one hand, one ember pencil cap, daylight.

Voice note

The words do not change between options. The presentation does.

**A website in a week. A

Blueprint speaks in measurements. Short declaratives, figures in mono, every promise with a date beside it. It never raises its voice, because the plan already says what will happen.
