

BRAND KIT. OPTION C, SIGNAL. SEPTEMBER 24TH, 2026

Signal

The Studio is a software company that ships. Big type, hard edges, one bright signal that tells you where to press.

Marks

Three pieces: the primary lockup, the monogram and the wordmark. Each is drawn as SVG and shown on the light ground and the dark ground.

MINIMUM SIZE

96 px

The monogram is never set below 16 px. The lockup is never set below 120 px wide. Below that, use the monogram alone.

CLEAR SPACE

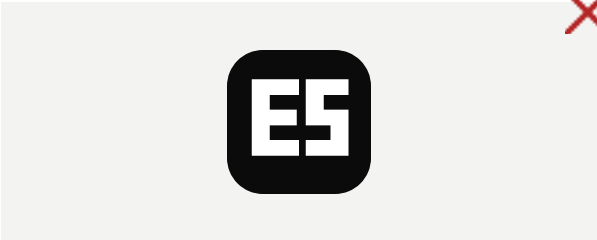

Clear space on every side equals x, one quarter of the monogram's height. Nothing enters the box.

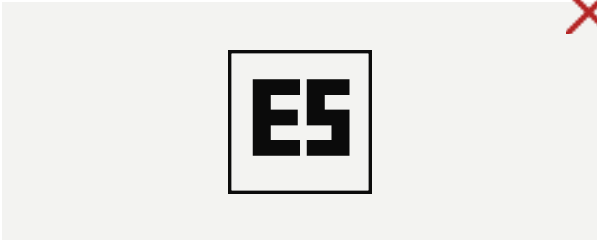

Three things never to do

Never two accent jobs on one screen

Never a rounded corner

Never the monogram outlined

Acid is the signal. Use it twice and it is decoration.	The whole system is square. One radius breaks it.	It is a solid block with the letters cut out. An outline is a different mark.

A laptop and a phone on matte black, screens white and blank, one hard spotlight from the upper left.

SHOT 02

A single keyboard key, extreme close up, black on black, the edge lit by one thin line of light.

SHOT 03

A printed scope on a black table, the paper very white, the shadow of the hand that set it down.

SHOT 04

A monitor on a black wall showing a plain grid of white squares, the room otherwise unlit.

Signal speaks in headlines. Big statements, short lines, numbers set in mono, and one bright button that says what to do next. It is sure of itself and does not explain twice.
